

EASILY TRACK YOUR POLYCYTHEMIA VERA SYMPTOMS ONLINE

INTRODUCING THE PV TRACKER TOOL—A DIGITAL RESOURCE BROUGHT TO YOU BY VOICES OF MPN

The PV Tracker Tool is a new online resource designed to help you track your PV symptoms, blood cell counts, and phlebotomies.

With this convenient online tracking tool, you'll be able to:

- 1 RATE** the severity of your most common PV symptoms
- 2 RECORD** key blood cell counts and follow changes over time
- 3 RECORD** the dates of your phlebotomies after each procedure
- 4 DOWNLOAD** results to share with your Healthcare Professional

USING THE PV TRACKER TOOL

The PV Tracker Tool helps you track aspects of your PV so that you have a record of your disease status over time. You may:

Score your
symptom
severity

Enter blood
test results
and track
phlebotomies

View
current and
past results

GET STARTED ON YOUR COMPUTER OR PHONE

The PV Tracker Tool can be used on your desktop computer — or accessed via your personal mobile device.

To access the PV Tracker Tool, simply visit PVSymptomTracker.com and follow the simple prompts.

Remember, keeping track of symptoms, blood cell counts, and phlebotomies helps you take an active role in your care — **and empowers you to have meaningful discussions with your Healthcare Professional.**

Start using the **PV Tracker Tool** today
by visiting PVSymptomTracker.com.
