

AT THE LEADING EDGE OF TODAY'S ADVANCED MEDICINE

James M. Slater, MD Proton Treatment & Research Center

The James M. Slater, MD Proton Treatment & Research Center at Loma Linda University Health is the first in the world to offer this type of cancer treatment in a hospital setting. We have treated more patients than any other center of its kind — nearly a quarter of all proton patients in the world.

Loma Linda University Transplant Institute

The Transplant Institute is one of the most comprehensive in the country. We perform organ transplants of the liver, heart, kidney and kidney-pancreas, as well as stem cell/bone marrow transplants in our Children's Hospital. Our Children's Hospital has one of the largest NICUs in Southern California and is a pioneer in the field of neonatal heart transplantation.

Loma Linda University International Heart Institute

The International Heart Institute has earned a worldwide reputation for innovation and excellence. Focused on personalized care that balances innovation, education and spiritual support, we have the most comprehensive center in the region for:

- Adult and pediatric cardiology
- Interventional cardiology services
- Cardiothoracic and vascular surgery
- Cardiac rehabilitation

Loma Linda University International Heart Institute has been designated by both San Bernardino and Riverside counties as a STEMI Receiving Center for heart attack care for its ability to provide rapid, life-saving responses to heart attack victims.

Loma Linda University Cancer Center

Loma Linda University Cancer Center is comprised of 11 Centers of Excellence offering the most advanced diagnostic and treatment services for all types of cancers, including breast, head and neck, genitourinary, gastrointestinal and skin cancer. In addition, we were first in the Inland Empire to offer the da Vinci Surgical System for the treatment of prostate and gynecological cancers. Our comprehensive center also offers stem cell transplants for adults, as well as custom treatment plans for each patient.

Our Cancer Center specializes in:

- Cancer prevention
- Early detection
- Treatment
- Research
- Education

Preventive screenings and education programs conducted by the Cancer Resource Center are detecting more cancers in their early, treatable stages, providing better outcomes and improving patient quality of life.

The original Loma Linda University Medical Center opened in 1967 and has grown to:

1,046 beds in six separate hospitals

924 faculty physicians providing care

27 different physician groups and 29 satellite clinics

Medical innovation and outstanding outcomes for 48,343 inpatients and 1,846,829 outpatients each year

LOMA LINDA UNIVERSITY
HEALTH

Strength in Excellence

LOMA LINDA UNIVERSITY
HEALTH

Many Strengths.
One Mission.

EXCEPTIONAL CARE

We provide a broad spectrum of advanced specialty care programs and services to the community, both locally and internationally. Quality of care is the most important strength that a healthcare organization must provide. Loma Linda University Health continues to build a global reputation for excellence in healthcare services.

LOMA LINDA UNIVERSITY MEDICAL CENTER

The hospitals of Loma Linda University Health have many strengths — skilled and compassionate staff, renowned physicians, advanced technology, world-class facilities — but only one mission: “To continue the teaching and healing ministry of Jesus Christ.”

At the heart of our system is the 482-bed Medical Center, home to:

- The world’s first hospital-based proton treatment center
- The Inland Empire Level I trauma center
- One of the nation’s busiest bone marrow and organ transplant programs

Our Dennis and Carol Troesh Medical Campus features a new emergency department with:

- Five triage rooms
- Four dedicated trauma rooms
- 40 exam rooms
- Two hybrid ORs with built in imaging equipment

LOMA LINDA UNIVERSITY CHILDREN’S HEALTH

In the new Dennis and Carol Troesh Medical Campus, our nine story Children’s Hospital tower has 364 beds, including 84 new private rooms where kids can heal alongside family. The Children’s Hospital offers:

- Equipment and furniture designed specifically for kids
- Board-certified pediatric specialists
- San Manuel Maternity Pavilion includes private suites for labor and delivery
- The only Level I pediatric trauma center in the Inland Empire
- A brand new pediatric cardiovascular lab

Loma Linda University Children’s Health has expanded to include our general, specialty and urgent pediatric care services in Indio and our six-bed neonatal intensive care unit in our Murrieta location.

LOMA LINDA UNIVERSITY MEDICAL CENTER EAST CAMPUS

Our East Campus focuses on four specialized services:

- Rehabilitation
- Orthopaedics
- Neurosurgery
- Family medicine

With 134 beds, our East Campus offers care for:

- Stroke, spine and joint conditions
- Physical therapy
- Urgent care
- Pain management

PossAbilities is our innovative community outreach program that provides resources and opportunities for persons with diverse disabilities.

LOMA LINDA UNIVERSITY BEHAVIORAL HEALTH

With locations in Redlands and Murrieta, Loma Linda University Behavioral Health provides services and programs that recognize the complex needs of patients facing mental health issues and substance use.

We offer a full range of services, including inpatient and outpatient treatment and specialty programs for:

- Children
- Adolescents
- Adults
- Seniors

Our programs explore the complexity of one’s mind, body and spirit in a safe and caring environment in order to begin the healing process, while restoring hope for the future.

LOMA LINDA UNIVERSITY SURGICAL HOSPITAL

Loma Linda University Surgical Hospital provides state-of-the-art technology in a convenient, more intimate setting, in several specialty areas:

- Minimally invasive surgery center
- Comprehensive weight loss center
- Women’s health center
- Urology center
- Head and neck center

LOMA LINDA UNIVERSITY HEALTH BEAUMONT–BANNING

Loma Linda University Health Beaumont-Banning is located in Beaumont

and offers a broad spectrum of outpatient healthcare services. These services include:

- Physical therapy
- Radiation medicine
- Obstetrics and gynecological services
- Family medicine services
- Variety of medical and surgical specialties
- Medical oncology infusion center
- Ancillary services include imaging, a laboratory and a pharmacy

LOMA LINDA UNIVERSITY MEDICAL CENTER – MURRIETA

Loma Linda University Medical Center – Murrieta is a 106-bed hospital offering general and acute-care services, including:

- Emergency care
- Obstetrics
- Urology
- Orthopaedics
- Interventional cardiovascular care

It houses six state-of-the-art surgical suites, a laparoscopic surgery center and an imaging center.
